My Dear Mabel.

Edith I beg pardon for not writing long ago I did not know where you were until yesterday Amy Brown & Mrs Cline was to see us Amy said you were in Phil. yet today I thought I must write to you I have been doctoring all the time and do not get much better I get weaker all the time can not get up near all day I get so tired I have a real good girl. I stayed in Lisbon 4 weeks and took treatment I can't see that it did me much good only made me weaker

my trouble is inflammation of the bladder & womb. The bladder is the worst I had to have it washed out every day & took electric bath every day. I am so nervous any thing that worries or excites me makes me so much worse.

I hope you are well & having a good time Frank & the boys are well Frank is away most of the time. Harvey is not at home very much comes home Saturday eve stays until Monday morning
